

Ideation Phase

Brainstorm & Idea Prioritization Template

Date: 31 January 2025

Team ID: LTVIP2025TMID35065

Project Name: Traffictelligence: Advanced Traffic Volume Estimation with Machine

Maximum Marks: 4 Marks

Brainstorm & Idea Prioritization Template

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving.

Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement.

Problem Statement

Urban traffic congestion has become a major challenge in rapidly growing cities, leading to increased travel time, fuel consumption, and environmental pollution. Conventional traffic monitoring systems lack predictive capabilities and struggle to process large volumes of historical and real-time data efficiently. There is a need for an intelligent system that can forecast traffic volume accurately to help authorities and citizens make data-driven decisions.
